Pioneer Technology Group selects Atlantic.Net to provide web hosting services

Maitland, Florida -- (July 3, 2006) -- Pioneer Technology Group, a provider of custom developed software to County Government, announced that it has partnered with Atlantic.Net to provide web hosting services.

Atlantic.Net is one of the fastest-growing private companies in Florida and the nation. Recognized as one of the Southeast's most reliable Internet Protocol (IP)-Carriers, Atlantic.Net's range of services includes high-speed Internet access, Web services, telecommunications, and dial-up.

Pioneer Technology will utilize Atlantic.Net's web hosting services with Excise, its Tourist Development Tax System. Excise provides for web based access to allow business registration and online remittance, accepting ACH, escrow account and credit card payments. In addition, it allows Audit tracking capabilities that integrate with the Property Appraiser's Office and other County departments to share information (building permits, non-homestead condo/homes, commercial properties) to aid tracking down businesses not in compliance.

About Pioneer Technology Group

Pioneer Technology Group is a provider of software products to County Government specifically targeting County Clerks, Property Appraisers and Tax Collectors. Pioneer Technology also provides consulting services to counties in the areas of electronic document transmission, recording and workflow management.

For more information about our other products and services including Axia, our Value Adjustment Board System, call us toll-free at 800-280-5281 or visit www.pioneertechnologygroup.com.
