Santa Rosa County Clerk of the Circuit Court to install Excise, Pioneer Technology Group's Tourist Development Tax System

Maitland, Florida -- (August 29, 2006) -- Pioneer Technology Group, a provider of custom developed software to County Government, announced that Santa Rosa County, Florida, Clerk of the Circuit Court has agreed to implement Excise, its Tourist Development Tax System.

Excise provides web based access to allow business registration and online remittance, accepting tele-checks and credit card payments. In addition it allows Audit tracking capabilities that integrate with the Property Appraiser's Office and other County departments to share information (building permits, non-homestead condo/homes, commercial properties) to aid tracking down businesses not in compliance.

Pioneer Technology Group's Tourist Development System also provides an optional web hosting service. This service eliminates the need for the County to purchase new hardware or upgrade their network to allow for high speed web access. Web Hosting also eliminates the concern of online payment acceptance and credit card fees.

About Pioneer Technology Group

Pioneer Technology Group is a provider of software products to County Government specifically targeting County Clerks, Property Appraisers and Tax Collectors. Pioneer Technology also provides consulting services to counties in the areas of electronic document transmission, recording and workflow management.
