St. Johns County, Florida moves forward with Installation of Axia, Pioneer Technology Group's Value Adjustment Board System

Maitland, Florida -- (May 5, 2007) -- Pioneer Technology Group, a provider of custom developed software to County Government, announced that the St. Johns County, Florida Clerk of the Circuit Court has signed a contract to implement Axia, its Value Adjustment Board System.

Axia will provide the St. Johns County Clerk of the Circuit Court with online access for taxpayers, Property Appraisers, Magistrates, and Value Adjustment Board staff. Online access will include real-time status of petitions, hearing dates and hearing decisions as well as allow for evidence submittal and retrieval. Axia's paperless hearing module allows for automated batch scheduling, and rescheduling of hearings. Additionally, Axia will handle the assigning of Special Magistrates with the correct qualifications, the generation of hearing notices, and the review of hearings schedules and daily agendas.

"Everyone at Pioneer Technology Group is excited about the addition of St. Johns County to our growing family of customers," said Steve T. Rumsey, President of Pioneer Technology Group.

The Clerk of Circuit Court in St. Johns County, Cheryl Strickland, added, "The number of petitions filled in St. Johns County has been steadily increasing; the addition of this software will help our VAB staff continue to provide our citizens with the service they are accustomed to receiving."
